It's Pizza Time!
Check out the Pizza Man video on the Moose Tube channel.

Use the clocks to answer the questions below.

1. Flo Yo ordered a pizza at 4:00. The pizza man said it would be delivered in 30 minutes. Draw the time the pizza arrived on the clock.

2. The pizza man delivered pizza to Moose Fabio at 1:15 p.m. The pizza man returned to the pizzeria at 1:40 p.m. How many minutes did it take the pizza man to get from Moose Fabio's house to the pizzeria?

3a. Moose Fabio made a pizza. It took him 5 minutes to stretch the pizza dough. It took him 2 minutes to spread the sauce and 3 minutes to sprinkle the cheese. The pizza cooked for 12 minutes. How much total time did it take him to make a pizza?
3b. If Moose Fabio started making his pizza at 11:35 a.m., what time was it ready to be eaten? Draw your answer on the blank clock.

4a. Most people eat pizza for dinner, not breakfast! Which time seems like a good dinner time?

4b. Draw the time you circled above on the clock:

5. Write down something you would eat at the different times below:

6:15 p.m.: _________________________

3:30 p.m.: _________________________

12:00 p.m.: ________________________

7:45 a.m.: _________________________
